FREE SCHOOLS IN TENNESSEE.

The people of Tennessee have no reason to be discouraged at the progress of their free school system. We have not reached perfection by any means, and have much to accomplish yet, but success is not reached in a day, especially in a matter where so much hard, intelligent, psrsevering labor is required. Our schools have vastly improved, whenever bulldozers and Red Shirt State Superintendent Trousdale has labored zealously and, we think, efficiently. Certainly he has done much to popularize the system, and for this deserves a great deal of credit. So far as our observation goes there has been a decided improvement in teachers. The teachers are more competent, as a general thing, and appear more devoted to their work. This is evidenced by the organization and large attendance upon teachers' institutes in many of the counties, and by the organization of Normal schools. We know of a great many earnest, zealous, de-

THE KIND OF BALLOT

WANTED. The Democrats of Ohio and elsewhere will inscribe on their Pharisaical banner, "A Free Ballot," but the honest people of the country want something more than a "free ballot," as that term would be defined by the Democratic dictionary. The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the couny repose in it, prove their experience

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are sublicly known, they furnish convincing idence of the superiority of this Saraparilla over every other alterative nedicine.
